Advanced Literacy Training

An understanding of how multisyllabic words are formed and used is essential for anyone who works with students who read, write and spell beyond an introductory level.

This course will provide a basic understanding of how prefixes, suffixes, and roots are formed and used in the English language using multisensory instructional methods.

Participants will observe model lessons and prepare sample lesson plans.

Prerequisite: Successful completion of an introductory course in Orton-Gillingham-based Multisensory Structured Language.
